

TurbiClean

Introducing TurbiClean: The Eco-Friendly Solution for Wind Turbine Maintenance

In the fast-evolving world of renewable energy, maintaining the efficiency and longevity of wind turbines is paramount. TurbiClean is specifically formulated to meet the unique cleaning demands of wind turbines, ensuring they operate at peak performance. Our cutting-edge cleaner and degreaser is not just powerful but also environmentally responsible and safe for both users and the planet.

Key Features of TurbiClean:

Biodegradable Formula: TurbiClean is designed with the environment in mind. Its fully biodegradable composition ensures that it breaks down into harmless substances, reducing environmental impact and promoting sustainability in wind turbine maintenance.

Safe and Non-Corrosive: Safety is at the core of TurbiClean. Its non-corrosive formula guarantees that it is gentle on turbine surfaces, protecting the integrity of the turbines while effectively removing grease, dirt, and grime.

Direct Release Safe: Understanding the need for efficient and hassle-free maintenance, TurbiClean is safe for direct release into the environment. This feature eliminates the need for complex wastewater management processes, making it a practical choice for on-site turbine maintenance.

User and Environmentally Friendly: Prioritizing health and safety, TurbiClean is safe for operators to use, ensuring a safer workplace while contributing positively to environmental protection.

Concentrated for Cost Efficiency: TurbiClean is a highly concentrated product that can be diluted at a 20:1 ratio right at the job site. This feature not only reduces shipping and handling costs but also significantly simplifies logistics. The ability to dilute TurbiClean onsite means less storage space is needed, and it becomes much easier to manage supplies, making it a cost-effective and logistically friendly option for wind turbine maintenance.

TurbiClean is to be diluted 20:1 with water before application Below are some dilution examples		
Amount of desired use solution	Amount of TurbiClean (Gallons)	Amount of Water (Gallons)
5 gallons	.2 gallons (1/5 gallon)	4.7
30 gallons	1.42	28.58
55 gallons	2.61	52.39
100	4.76	95.24
105	5	100
275 gallons	13.1	261.9
